PROFESSIONAL SUMMARY

Senior Product Owner with 8+ years of experience delivering enterprise SaaS products across Wealth Management, Financial Services, and CRM platforms. Experienced in owning product backlogs, defining product roadmaps, prioritizing customer-centric initiatives, and leading cross-functional Agile teams from product discovery through production release.

Partner closely with Product Managers, Engineering, UX, Architecture, QA, and business stakeholders to translate strategic objectives into scalable software solutions. Strong technical foundation enables effective decision-making across APIs, cloud platforms, enterprise integrations, and microservices.

PROFESSIONAL EXPERIENCE

Senior Product Owner - INTELLIFLO | Hyderabad, India

Career Progression

- Senior Product Owner (2024 – Present)
- Product Owner (2023 – 2024)
- Senior Software Engineer (2022 – 2023)
- Advanced Software Engineer (2021 – 2022)

Key Achievements

- Own and prioritize the enterprise product backlog for Wealth Management capabilities, balancing customer needs, business priorities, and engineering capacity across multiple Agile teams.
- Partner with UK-based Product Managers, Architects, UX teams, and Engineering leadership to define roadmap priorities, release scope, and strategic product initiatives.
- Lead backlog refinement, sprint planning, story decomposition, and acceptance criteria definition, enabling predictable Agile delivery and improved development efficiency.
- Translate complex business requirements into Epics, Features, User Stories, and Acceptance Criteria that enable engineering teams to deliver scalable enterprise solutions.
- Delivered high-impact enterprise capabilities including Outlook Integration, Intelliflo IQ, Money Alive Integration, Client Review, Financial Planning, and CRM enhancements supporting advisor productivity and customer engagement.
- Leverage customer feedback, production analytics, and stakeholder insights to drive product enhancements and improve platform usability.
- Evaluate technical feasibility with engineering teams and balance business priorities with technical constraints to make informed product decisions.
- Support enterprise integrations with third-party platforms while ensuring scalability, reliability, and compliance with organizational standards.

Selected Product Deliveries

- **Outlook Integration** : Integrated Microsoft Outlook workflows into the Wealth Management platform, improving advisor productivity and client communication.
- **Intelliflo IQ** : Delivered AI-powered capabilities to improve advisor efficiency and customer experience.
- **Money Alive Integration** : Integrated third-party financial education platform to enhance client engagement.
- **Client Review** : Delivered enhanced advisor review workflows supporting customer lifecycle management.

Senior Software Engineer - BROADRIDGE FINANCIAL SOLUTIONS (via Tectoro) | Hyderabad, India (2020 – 2021)

- Delivered enterprise brokerage capabilities supporting ACATS account transfers for regulated Wealth Management platforms.
- Developed ACATS account transfer capabilities for regulated financial services.
- Designed IBM MQ integrations enabling secure messaging between enterprise applications.
- Collaborated closely with Product Owners, Business Analysts, QA, and Engineering teams throughout Agile software delivery.

Associate Software Developer - GTKONNECT (Acquired by EY) | Hyderabad, India (2018 – 2020)

- Designed and delivered enterprise solutions supporting Global Trade Management and U.S. Customs compliance through CBP and ABI integrations.
- Enhanced Import Security Filing (ISF) and Foreign Trade Zone (FTZ) capabilities.
- Integrated with CBP and ABI services to automate regulatory processes.
- Built scalable APIs and backend services supporting international trade workflows.
